

MAKE SURE YOUR COMPLIANT AND CUSTOMERS ARE SAFE

ABOUT OUR COMPANY

Flue Direct Ltd was established 22 years ago and quickly became a leading supplier to the pub, restaurant and hotel industry. Mark Kerrigan our managing director has a wealth of experience in all types of commercial and industrial premises. Based in Preston Flue Direct covers the UK with our 10 mobile technical teams.

Everyone loves a pub with an open fire. And with autumn round the corner, it will not be long before the lure of a roaring fire will be a big draw for customers.

It is vital, however, that all hospitality venues from pubs and hotels to restaurants and guest houses, take action now to ensure the safety of their open fireplaces.

OUR SERVICES

Planned Preventative Maintenance (PPM)

Our PPM is designed to keep each site we work on compliant with Hetas regulations and include:

- Chimney camera survey to check for birds nests, internal damage or blockages.
- Footage sent to client for the records and giving full breakdown of any recommended rectification works required to make site compliant.
- Sweeping and cleaning of the chimney.
- Inspection of stove, log burner or open fire including hearth.
- Inspection & test of chimney fan if there is a fan fitted on site.
- Post inspection compliance certificate issued.
- Recommended next inspection date 6 months or 12 months depending on fuel being burned and usage.

Follow On Works (FOW)

Once the PPM has been completed any follow on works that are recommended will be emailed to the client with the site camera footage. A full break down of the works that are required with a quote to be approved by the client.
